

M/S- S.A Enterprise

Constructing with Precision,
Delivering with Pride.

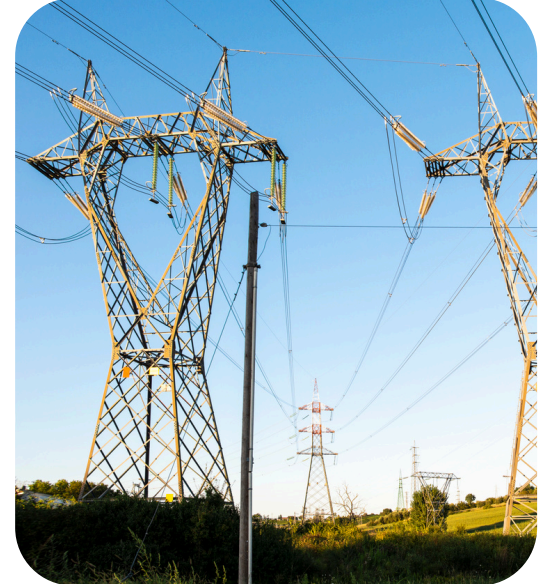

About Us

SA Enterprise Construction Company is a dynamic and reliable firm committed to delivering excellence in construction, electrical works, and transmission line projects. Since our inception, we have built a reputation for quality, safety, and timely execution across a range of infrastructure and utility projects.

At SA Enterprise, we bring together skilled professionals, modern technology, and a strong work ethic to offer end-to-end solutions that meet the highest standards. From civil construction and structural development to advanced electrical installations and transmission systems, our team is equipped to handle projects of any scale with precision and efficiency.

We take pride in our ability to adapt to the evolving demands of the industry while staying rooted in our core values — integrity, commitment, and client satisfaction. Whether it's building robust infrastructure or powering communities through transmission and electrical systems, SA Enterprise is your trusted partner in progress.

👍👍 **We Believe**
in and Promote
Quality Delivery 💬💬

Our Values

We believe in maintaining the highest standard of professionalism, integrity, creativity, positive attitude, deliver that meets and surpass expectations while offering prompt and lasting solutions that stand the test of time.

Our Vision

A regional market leader in provision of civil engineering and building construction services

Our Mission

We aim to be a world class engineering Construction Company providing efficient affordable, sustainable, cost effective services of highest level of quality

Our Team

Our team is comprised of highly experienced and qualified professionals with both administrative and technical competencies who work closely with our clients to provide superior services. Their quality of work is recognized through their excellence in management, their respectability in the industry and through an exceptional final product delivered to our clients.

They pride themselves in delivering unsurpassed customer service, expertise and professionalism to all our clients through their dedication to the unique needs of each client. This is supported by a progressive management style that encourages a quality culture throughout SA Enterprise. SA Enterprise maintains a rigorous quality control program that includes continuous awareness, communication and implementation which supports all team members in their daily tasks.

Our team combines technical excellence with a superior understanding of clients' needs and the environment in which our clients operate. We are committed to building and maintaining working client partnerships that add value and consistently exceed expectations. Our aim is to provide the highest possible standard of quality and service in the construction industry, giving all our clients the maximum satisfaction and attention to detail that they deserve.

MANAGING DIRECTOR

Provides overall leadership, strategic planning and business direction, ensuring successful delivery of construction, infrastructure, transmission and electrical projects.

DIRECTOR – PROJECTS & INFRASTRUCTURE

Leads major infrastructure projects from planning and mobilisation through execution, coordination and successful completion.

HEAD – CIVIL ENGINEERING

Specialises in civil works including foundations, buildings, roads, drainage, structural works, earthwork and substation infrastructure.

HEAD – TRANSMISSION & DISTRIBUTION

Experienced in transmission and distribution infrastructure, including route planning, tower foundations, erection coordination and project execution.

HEAD – ELECTRICAL SUBSTATION

Responsible for electrical substation planning, equipment installation, electrical systems, testing, commissioning and technical coordination.

HEAD – CONSTRUCTION & EXECUTION

Manages field operations, construction activities, manpower, materials, equipment and project schedules to ensure quality and timely completion.

SENIOR MANAGER – ELECTRICAL & E&M

Handles electrical installations, E&M systems, cabling, panels, lighting, auxiliary systems and technical site coordination.

STRUCTURAL & FOUNDATION ENGINEER

Specialises in structural analysis, equipment foundations, RCC structures, steel structures and construction detailing for infrastructure projects.

PLANNING & ESTIMATION ENGINEER

Responsible for quantity estimation, BOQ preparation, rate analysis, project scheduling, cost control and progress monitoring.

QA/QC ENGINEER

Ensures construction and electrical works comply with approved drawings, technical specifications, quality standards and project requirements.

HSE MANAGER

Leads site safety management, risk assessment, safety compliance, work permits and environmental protection practices.

PROJECT COORDINATOR

Coordinates between clients, consultants, engineers, contractors and site teams to maintain smooth project communication and documentation.

SURVEY & CONSTRUCTION ENGINEER

Handles site surveys, setting-out, levels, measurements, alignment and field verification required for accurate construction execution.

PROCUREMENT & CONTRACTS MANAGER

Manages procurement planning, vendor coordination, contracts, purchase orders, materials management and deliveries.

SITE EXECUTION MANAGER

Oversees daily site activities, resource deployment, work progress, quality control and ensures safe, on-time and efficient execution.

Our Capacity

Power Substation & Transmission Line Civil Works

At SA Enterprise, we specialize in delivering high-quality civil works for Power Substations and Transmission Lines, serving government bodies, private developers, and infrastructure companies. With a commitment to engineering excellence, safety, and timely execution, we provide end-to-end solutions that support the backbone of power distribution infrastructure.

Our expertise includes:

- Site development and grading
- Foundation construction for towers and equipment
- Cable trenching and earthing systems
- Control room and transformer foundation works
- Substation fencing, drainage, and approach roads

Civil Engineering Structures and Roads Construction

SA Enterprise is a trusted name in the field of Civil Engineering Structures and Roads Construction, delivering durable and efficient infrastructure solutions across urban and rural Area. With a strong foundation in engineering excellence and project execution, we cater to both public and private sector clients, ensuring quality, safety, and sustainability in every project.

- Construction of culverts, bridges, retaining walls, and drainage systems
- Development of rural and urban roads, bituminous and concrete pavements
- Earthwork, subgrade preparation, and base courses
- Site grading, embankment formation, and road safety features
- Civil works for industrial, institutional, and public buildings

Building Construction

SA Enterprise is a dedicated and growing construction firm specializing in Building Construction services for residential, commercial, institutional, and industrial projects. With a strong focus on quality workmanship, timely delivery, and structural integrity, we provide complete building solutions from foundation to finish.

- RCC and structural works
- Brickwork, plastering, and finishing
- Roofing and waterproofing
- Electrical and plumbing installations
- Interior development and external landscaping

Topographical Survey

SA Enterprise is a specialized service provider in the field of Topographical Survey, offering precise and reliable land surveying solutions for infrastructure planning, engineering design, and development projects. Using advanced instruments and GIS technology, we deliver detailed topographic data that forms the backbone of successful project execution.

Our survey expertise includes:

- Contour and level surveys
- Boundary and plot demarcation
- Road and alignment surveys
- River and drainage mapping
- Utility and infrastructure mapping
- DGPS, Total Station & Drone-based surveys

Construction of Control Room Building of Proposed New 33/11 kV GIS Sub-station and associated 33kV & 11kV Lines at Meteli in Jalpaiguri Region of WBSEDCL in West Bengal.

Infrastructure and Building Projects

SA Enterprise has successfully completed RCC (Reinforced Cement Concrete) work in various infrastructure and building projects across Assam. Our scope of work included foundations, columns, beams, slabs, retaining walls, and other essential structural components for residential, commercial, and government projects. With a focus on quality, safety, and durability, we used high-grade materials and followed standard engineering practices to ensure long-lasting performance. Our experienced team of engineers, supervisors, and skilled laborers executed the work within timelines, meeting all client specifications. SA Enterprise remains committed to delivering reliable RCC solutions that contribute to the growing infrastructure development in Assam.

Heavy Construction Work Completed by SA Enterprise in Andhra Pradesh

SA Enterprise has successfully completed heavy construction work in Andhra Pradesh, demonstrating our capability to handle large-scale civil engineering projects with efficiency and precision. The scope included major RCC structures, industrial buildings, road construction, drainage systems, and site development for both government and private sectors. Our experienced team ensured strict quality control, safety measures, and timely execution, meeting all client and regulatory standards. Equipped with advanced machinery and modern techniques, we delivered robust and long-lasting infrastructure. This project reinforces SA Enterprise's reputation as a reliable construction partner, capable of executing heavy construction works across diverse terrains and challenging environments.

OPTICAL FIBRE BASED Advanced CCTV Surveillance System Installation & Maintenance

SA Enterprise provides comprehensive commercial CCTV surveillance solutions across 23 municipalities, integrating advanced technology with precise planning using DGPS (Differential Global Positioning System). Our services include site survey, strategic camera placement, installation, and network setup to ensure maximum coverage and security. By utilizing DGPS, we accurately map municipal areas to determine optimal locations for CCTV deployment, enhancing monitoring and public safety. Our end-to-end solutions support smart city initiatives, crime prevention, and traffic management. With a commitment to quality, reliability, and timely execution, SA Enterprise is a trusted partner for municipal CCTV infrastructure development and maintenance across diverse urban environments.

Topographical Survey

SA Enterprise offers complete topographical survey services using advanced DGPS (Differential Global Positioning System) technology to ensure high-accuracy data collection for various infrastructure and development projects. Our skilled survey team captures precise land features, contours, elevations, and boundaries, enabling accurate planning, design, and execution. We cater to sectors such as road construction, urban planning, water supply, power transmission, and land demarcation. With a strong focus on reliability, efficiency, and technical excellence, SA Enterprise delivers timely and dependable survey outputs tailored to project requirements. Our commitment to quality and modern survey methods makes us a trusted partner in the surveying industry.

Subject:- Implementation of the E.S.I. Act, 1948 and Registration of Employees of the Factories and Establishments under Section 1(5) of the Act, as amended.

Dear Sir(s),

1. It is informed that under section 1(3) of the esi. act, 1948 is applicable to all factories/establishments covered under the act within the area where your factory/establishment is situated
2. It is further informed that the appropriate government has extended the provisions of the act to other establishments under section 1(5) of the act in this area
3. Under section 2 a of the act such a factory/establishment is required to register itself under the act and chapter iv thereof casts a responsibility on the principal employer thereof to get his employees registered and pay contributions in respect of these employees covered under the act.
4. On the basis of the particulars in respect of your factory/establishment submitted by you, the report of the inspection conducted by the Social Security Officer, who inspected your establishment on -NA-, your establishment falls within the purview of Section 1(5) of the Act with effect from 06-12-2022. In case, however, subsequent facts reveal that your establishment was coverable from a date prior to the date mentioned above, you shall make yourself liable to comply with the provisions of the Act from such earlier date.
5. It is requested to take immediate steps for registration of your employees by submitting declaration forms online, payment of contribution, maintenance of records etc. from the date of coverage of your factory/establishment under the act. **You are also requested to submit employer's registration form (form 01) as required under the provisions of sec.2-a of the esi act , 1948 read with regulation 10-b of the esi(general), regulations, 1950.
6. For the sake of convenience your establishment has been allotted code No **74000757710001009** which may kindly be used in all communications sent to this office and on all forms at the place indicated for the purpose. The Branch Office of the Corporation situated at **888, G.T. Road, Manglik Bhawan (Near Star Cinema) Dist-Burdwan, WB - 713101.** has been instructed to render necessary assistance to you in connection with registration of your employees. In case you find any difficulty or for any other purpose which may be necessary in connection with the Scheme you are requested to contact the Manager of the above Branch Office who will render necessary help in the matter.
7. A State wise list of ESI Dispensaries is available on our website www.esic.nic.in under the link Directories which can be downloaded. It is requested that publicity may be given about the Employees' State Insurance Dispensaries to enable your employees to choose their E.S.I. Dispensaries
